### **DWS Municipal Income Trust Announces Results of Annual Meeting of Shareholders**

**New York, NY September 19, 2025 – DWS Municipal Income Trust (NYSE: KTF) (the “Fund”)** announced today the results of the Annual Meeting of Shareholders for the Fund held on September 19, 2025 at the offices of DWS Investment Management Americas, Inc., 100 Summer Street, Boston, Massachusetts. A quorum of shareholders was present and the Class II Trustee nominee (Ms. Catherine Schrand) and preferred share Trustee nominees (Mr. Keith R. Fox and Mr. Chad D. Perry) received a sufficient number of votes from the common shareholders and preferred shareholders, voting together as a single class, and from the preferred shareholders only, voting as a separate class, respectively, to be elected as Trustees.

#### **Important Information**

**DWS Municipal Income Trust.** Bond investments are subject to interest-rate, credit, liquidity and market risks to varying degrees. When interest rates rise, bond prices generally fall. Credit risk refers to the ability of an issuer to make timely payments of principal and interest. Municipal securities are subject to the risk that litigation, legislation or other political events, local business or economic conditions or the bankruptcy of the issuer could have a significant effect on an issuer's ability to make payments of principal and/or interest. The market for municipal bonds may be less liquid than for taxable bonds and there may be less information available on the financial condition of issuers of municipal securities than for public corporations. Investing in derivatives entails special risks relating to liquidity, leverage and credit that may reduce returns and/or increase volatility. Leverage results in additional risks and can magnify the effect of any gains or losses. Although the fund seeks income that is exempt from federal income taxes, a portion of the fund's distributions may be subject to federal, state and local taxes, including the alternative minimum tax.

Closed-end funds, unlike open-end funds, are not continuously offered. There is a one-time public offering and once issued, shares of closed-end funds are bought and sold in the open market through a stock exchange. Shares of closed-end funds frequently trade at a discount to the net asset value. The price of a fund's shares is determined by a number of factors, several of which are beyond the control of the fund. Therefore, the fund cannot predict whether its shares will trade at, below or above net asset value.

Past performance is no guarantee of future results.

This press release shall not constitute an offer to sell or a solicitation to buy, nor shall there be any sale of these securities in any state or jurisdiction in which such offer or solicitation or sale would be unlawful prior to registration or qualification under the laws of such state or jurisdiction.

War, terrorism, sanctions, economic uncertainty, trade disputes, public health crises and related geopolitical events have led, and, in the future, may lead to significant disruptions in US and world economies and markets,

which may lead to increased market volatility and may have significant adverse effects on the Fund and its investments.
