Stocks may decline in value. The Fund will be managed using the CROCI[®] Investment Process, which is based on portfolio management's belief that, over time, stocks which display more favorable financial metrics (for example, the CROCI[®] Economic P/E Ratio) as generated by this process may outperform stocks which display less favorable metrics. This premise may not prove to be correct and prospective investors should evaluate this assumption prior to investing in the Fund. Dividends are not guaranteed. If the dividend-paying stocks held by the Fund reduce or stop paying dividends, the Fund's ability to generate income may be adversely affected. Preferred stocks, a type of dividend-paying stock, present certain additional risks. The Fund may lend securities to approved institutions. Please read the prospectus for details.
