\* Non-income producing security.

- (a) All or a portion of these securities were on loan. In addition, "Other Assets and Liabilities, Net" may include pending sales that are also on loan. The value of securities loaned at December 31, 2025 amounted to \$4,740,517, which is 0.6% of net assets.
- (b) Variable or floating rate security. These securities are shown at their current rate as of December 31, 2025. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description above. Certain variable rate securities are not based on a published reference rate and spread but adjust periodically based on current market conditions, prepayment of underlying positions and/or other variables. Securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable.
- (c) Government-backed debt issued by financial companies or government sponsored enterprises.
- (d) Investment was valued using significant unobservable inputs.
- (e) Annualized yield at time of purchase; not a coupon rate.
- (f) At December 31, 2025, this security has been pledged, in whole or in part, to cover initial margin requirements for open futures contracts.
- (g) At December 31, 2025, this security has been pledged, in whole or in part, as collateral for open commodity-linked rate swap contracts.
- (h) Affiliated fund managed by DWS Investment Management Americas, Inc. The rate shown is the annualized seven-day yield at period end.
- (i) Represents cash collateral held in connection with securities lending. Income earned by the Fund is net of borrower rebates.
- (j) Represents the net increase (purchase cost) or decrease (sales proceeds) in the amount invested in cash collateral for the period ended December 31, 2025.

144A: Security exempt from registration under Rule 144A under the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

CLO: Collateralized Loan Obligation

COT: Commitment of Traders

HRW: Hard Red Winter

The accompanying notes are an integral part of the consolidated financial statements.

Interest Only: Interest Only (IO) bonds represent the “interest only” portion of payments on a pool of underlying mortgages or mortgage-backed securities. IO securities are subject to prepayment risk of the pool of underlying mortgages.

LME: London Metal Exchange

RBOB: Reformulated Blendstock for Oxygenate Blending

REIT: Real Estate Investment Trust

SOFR: Secured Overnight Financing Rate

ULS: Ultra-Low Sulfur

WTI: West Texas Intermediate

Included in the portfolio are investments in mortgage or asset-backed securities which are interests in separate pools of mortgages or assets. Effective maturities of these investments may be shorter than stated maturities due to prepayments.

At December 31, 2025, open futures contracts purchased were as follows:

Futures	Currency	Expiration Date	Contracts	Notional Amount (\$)	Notional Value (\$)	Unrealized Appreciation/ (Depreciation) (\$)

## Currency Abbreviation(s)

USD United States Dollar

For information on the Fund's policy and additional disclosures regarding futures contracts, options purchased, commodity-linked swap contracts and written options, please refer to the Derivatives section of Note B in the accompanying Notes to Financial Statements.

## Fair Value Measurements

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities. The following is a summary of the inputs used as of December 31, 2025 in valuing the Fund's investments. For information on the Fund's policy regarding the valuation of investments, please refer to the Security Valuation section of Note A in the accompanying Notes to Consolidated Financial Statements.

<b>Assets</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

# Notes to Consolidated Financial Statements

(Unaudited)

## A. Organization and Significant Accounting Policies

DWS Enhanced Commodity Strategy Fund (the “Fund”) is a diversified series of Deutsche DWS Securities Trust (the “Trust”), which is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company organized as a Massachusetts business trust.

The Fund offers multiple classes of shares which provide investors with different purchase options. Class A shares are subject to an initial sales charge. Class C shares are not subject to an initial sales charge but are subject to higher ongoing expenses than Class A shares and a contingent deferred sales charge payable upon certain redemptions within one year of purchase. Class C shares automatically convert to Class A shares in the same fund after 8 years, provided that the Fund or the financial intermediary through which the shareholder purchased the Class C shares has records verifying that the Class C shares have been held for at least 8 years. Class R6 shares are not subject to initial or contingent deferred sales charges and are generally available only to certain qualifying plans and programs. Class S shares are not subject to initial or contingent deferred sales charges and are available through certain intermediary relationships with financial services firms, or can be purchased by establishing an account directly with the Fund’s transfer agent. Institutional Class shares are not subject to initial or contingent deferred sales charges and are generally available only to qualified institutions.

Investment income, realized and unrealized gains and losses, and certain fund-level expenses and expense reductions, if any, are borne pro rata on the basis of relative net assets by the holders of all classes of shares, except that each class bears certain expenses unique to that class such as distribution and service fees, services to shareholders and certain other class-specific expenses. Differences in class-level expenses may result in payment of different per share dividends by class. All shares of the Fund have equal rights with respect to voting subject to class-specific arrangements.

The Fund’s consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) which require the use of management estimates. Actual results could differ from those estimates. Subsequent events, if any, through the date that the consolidated financial statements were issued have been evaluated in the preparation of the consolidated financial statements. The Fund qualifies as an investment company under Topic 946 of Accounting Standards Codification of U.S. GAAP. The policies

described below are followed consistently by the Fund in the preparation of its consolidated financial statements.

**Principles of Consolidation.** The Fund invests indirectly in commodities markets through a wholly owned subsidiary, Cayman Commodity Fund II, Ltd., organized under the laws of the Cayman Islands (the “Subsidiary”). The Fund and the Subsidiary are each a commodity pool and are subject to the requirements of the Commodity Exchange Act (“CEA”), as amended, and the rules of the Commodity Futures Trading Commission (“CFTC”) promulgated thereunder. DWS Investment Management Americas, Inc. (the “Advisor”) acts as a commodity pool operator with respect to the operation of the Fund and the Subsidiary as commodity pools under and pursuant to the CEA. The Advisor, the Fund and the Subsidiary are subject to dual regulation by the CFTC and the Securities and Exchange Commission. Among other investments, the Subsidiary may invest in commodity-linked derivative instruments, such as futures and options contracts and commodity-linked swaps. The Subsidiary may also invest in debt securities, some of which are intended to serve as margin or collateral for the Subsidiary’s derivatives positions. The Subsidiary may also invest available cash in affiliated money market funds. The Subsidiary is managed by the same portfolio managers that manage the Fund. As of December 31, 2025, the Fund’s investment in the Subsidiary was \$180,567,184, representing 21.7% of the Fund’s total assets.

The Fund’s Investment Portfolio has been consolidated and includes the portfolio holdings of the Fund and the Subsidiary. The consolidated financial statements include the accounts of the Fund and the Subsidiary. All inter-company transactions and balances have been eliminated.

**Operating Segment.** The Fund adopted FASB Accounting Standards Update 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures (“ASU 2023-07”). ASU 2023-07 impacts financial statement disclosures only and does not affect the Fund’s financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The President and Chief Executive Officer acts as the Fund’s CODM. The Fund represents a single operating segment, as the CODM monitors the operating results of the Fund as a whole, and the Fund’s long-term strategic asset allocation is pre-determined in accordance with the terms of its prospectus, based on a defined investment strategy that is executed by the Fund’s portfolio managers as a team. The financial information in the form of the Fund’s portfolio composition, total returns, expense ratios and changes in net

asset (i.e., changes in net assets resulting from operations, subscriptions and redemptions), which are used by the CODM to assess the segment's performance versus the Fund's comparative benchmarks and to make resource allocation decisions for the Fund's single segment, is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying Consolidated Statement of Assets and Liabilities as "total assets" and results of operations and significant segment expenses are listed on the accompanying Consolidated Statement of Operations.

**Security Valuation.** Investments are stated at value determined as of the close of regular trading on the New York Stock Exchange on each day the exchange is open for trading.

The Fund's Board has designated DWS Investment Management Americas, Inc. (the "Advisor") as the valuation designee for the Fund pursuant to Rule 2a-5 under the 1940 Act. The Advisor's Pricing Committee (the "Pricing Committee") typically values securities using readily available market quotations or prices supplied by independent pricing services (which are considered fair values under Rule 2a-5). The Advisor has adopted fair valuation procedures that provide methodologies for fair valuing securities.

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The level assigned to the securities valuations may not be an indication of the risk or liquidity associated with investing in those securities.

Debt securities are valued at prices supplied by independent pricing services approved by the Pricing Committee. Such services may use various pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics, prepayment speeds and other data, as well as broker quotes. If the pricing services are unable to provide valuations, debt securities are valued at the average of the most recent reliable bid quotations or evaluated prices, as applicable, obtained from broker-dealers. These securities are generally categorized as Level 2.

Investments in open-end investment companies are valued at their net asset value each business day and are categorized as Level 1.

Futures contracts are generally valued at the settlement prices established each day on the exchange on which they are traded and are categorized as Level 1.

Swap contracts are valued daily based upon prices supplied by a pricing vendor approved by the Pricing Committee, if available, and otherwise are valued at the price provided by the broker-dealer with which the swap was traded. Swap contracts are generally categorized as Level 2.

Exchange-traded options are valued at the last sale price or, in the absence of a sale, the mean between the closing bid and asked prices or at the most recent asked price (bid for purchased options) if no bid or asked price are available. Exchange-traded options are generally categorized as Level 1. Over-the-counter written or purchased options are valued at prices supplied by a pricing vendor approved by the Pricing Committee, if available, and otherwise are valued at the price provided by the broker-dealer with which the option was traded. Over-the-counter written or purchased options are generally categorized as Level 2.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value as determined in accordance with procedures approved by the Pricing Committee and are generally categorized as Level 3. In accordance with the Fund's valuation procedures, factors considered in determining value may include, but are not limited to, the type of the security; the size of the holding; the initial cost of the security; the existence of any contractual restrictions on the security's disposition; the price and extent of public trading in similar securities of the issuer or of comparable companies; quotations or evaluated prices from broker-dealers and/or pricing services; information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities); an analysis of the company's or issuer's financial statements; an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold; and with respect to debt securities, the maturity, coupon, creditworthiness, currency denomination and the movement of the market in which the security is normally traded. The value determined under these procedures may differ from published values for the same securities.

Disclosure about the classification of fair value measurements is included in a table following the Fund's Consolidated Investment Portfolio.

**Securities Lending.** National Financial Services LLC (Fidelity Agency Lending), as securities lending agent, lends securities of the Fund to certain financial institutions under the terms of its securities lending agreement. During the term of the loans, the Fund continues to receive interest and dividends generated by the securities and to participate in any changes in their market value. The Fund requires the borrowers of the securities to maintain collateral with the Fund consisting of cash and/or securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities having a value at least equal to the value of the securities

loaned. When the collateral falls below specified amounts, the securities lending agent will use its best efforts to obtain additional collateral on the next business day to meet required amounts under the securities lending agreement. During the six months ended December 31, 2025, the Fund invested the cash collateral, if any, into a joint trading account in affiliated money market funds, including DWS Government & Agency Securities Portfolio, managed by DWS Investment Management Americas, Inc. DWS Investment Management Americas, Inc. receives a management/administration fee (0.14% annualized effective rate as of December 31, 2025) on the cash collateral invested in DWS Government & Agency Securities Portfolio. The Fund receives compensation for lending its securities either in the form of fees or by earning interest on invested cash collateral net of borrower rebates and fees paid to a securities lending agent. Either the Fund or the borrower may terminate the loan at any time, and the borrower, after notice, is required to return borrowed securities within a standard time period. There may be risks of delay and costs in recovery of securities or even loss of rights in the collateral should the borrower of the securities fail financially. If the Fund is not able to recover securities lent, the Fund may sell the collateral and purchase a replacement investment in the market, incurring the risk that the value of the replacement security is greater than the value of the collateral. The Fund is also subject to all investment risks associated with the reinvestment of any cash collateral received, including, but not limited to, interest rate, credit and liquidity risk associated with such investments. As of December 31, 2025, the Fund had securities on loan. The value of the related collateral exceeded the value of the securities loaned at period end.

**Remaining Contractual Maturity of the Agreements** as of December 31, 2025

	Overnight and Continuous	<30 days	Between 30 & 90 days	>90 days	Total
<b>Securities Lending Transactions</b>					
Corporate Bonds	\$ 4,956,864	\$ —	\$ —	\$ —	<b>\$ 4,956,864</b>

Gross amount of recognized liabilities and cash collateral for securities lending transactions: \$ 4,956,864

**When-Issued, Delayed-Delivery Securities and Forward-Commitment Transactions.** The Fund may purchase or sell securities on a when-issued, delayed-delivery or forward- commitment basis, including To Be Announced (TBA) purchase and sell commitments, with delivery or payment to occur at a later date beyond the normal settlement period. At the time the Fund enters into a commitment to purchase or sell a security, the transaction is recorded and the value of the transaction is reflected in the net asset value. The price of such security and the date when the security will be delivered and paid for are fixed at the time the transaction

is negotiated. The value of the security may vary with market fluctuations. The Fund may sell a TBA purchase commitment before the settlement date or enter into a new commitment to extend the delivery date into the future. Additionally, the Fund or the counterparty may be required to post securities and/or cash collateral in accordance with the terms of the TBA purchase or sell commitment.

Certain risks may arise upon entering into when-issued, delayed-delivery or forward-commitment transactions from the potential inability of counterparties to meet the terms of their contracts or if the issuer does not issue the securities due to political, economic or other factors. Such transactions may also have the effect of leverage on the Fund and may cause the Fund to be more volatile. Additionally, losses may arise due to changes in the value of the underlying securities.

**Tax Information.** The Fund's policy is to comply with the requirements of the Internal Revenue Code of 1986, as amended, which are applicable to regulated investment companies, and to distribute all of its taxable income to its shareholders.

Income from certain commodity-linked derivatives does not constitute "qualifying income" to the Fund. Receipt of such income could cause the Fund to be subject to tax at the Fund level. The IRS has issued a private letter ruling to the Fund stating that such income earned through its wholly owned Subsidiary constitutes qualifying income. The Fund is required to increase its taxable income by its share of the Subsidiary's income, including net gains from commodity-linked transactions. Net investment losses of the Subsidiary cannot be deducted by the Fund in the current period nor carried forward to offset taxable income for future periods.

At June 30, 2025, the Fund had net tax basis capital loss carryforwards of \$42,413,631, including short-term losses (\$15,233,301) and long-term losses (\$27,180,330), which may be applied against realized net taxable capital gains indefinitely.

At December 31, 2025, the aggregate cost of investments for federal income tax purposes was \$1,685,023,254. The net unrealized depreciation for all investments based on tax cost was \$868,796,671. This consisted of aggregate gross unrealized appreciation for all investments for which there was an excess of value over tax cost of \$210,627,211 and aggregate gross unrealized depreciation for all investments for which there was an excess of tax cost over value of \$1,079,423,882.

The Fund files tax returns with the Internal Revenue Service, the State of New York, and various other states. Each of the tax years in the four-year period ended June 30, 2025, remains subject to examination by taxing authorities.

**Distribution of Income and Gains.** Distributions from net investment income of the Fund, if any, are declared and distributed to shareholders

quarterly. Net realized gains from investment transactions, in excess of available capital loss carryforwards, would be taxable to the Fund if not distributed, and, therefore, will be distributed to shareholders at least annually. The Fund may also make additional distributions for tax purposes if necessary.

The timing and characterization of certain income and capital gain distributions are determined annually in accordance with federal tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences primarily relate to premium amortization on debt securities and investment in the subsidiary. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. Accordingly, the Fund may periodically make reclassifications among certain of its capital accounts without impacting the net asset value of the Fund.

The tax character of current year distributions will be determined at the end of the current fiscal year.

**Expenses.** Expenses of the Trust arising in connection with a specific fund are allocated to that fund. Other Trust expenses which cannot be directly attributed to a fund are apportioned among the funds in the Trust based upon the relative net assets or other appropriate measures.

**Contingencies.** In the normal course of business, the Fund may enter into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet been made. However, based on experience, the Fund expects the risk of loss to be remote.

**Other.** Investment transactions are accounted for on a trade date plus one basis for daily net asset value calculations. However, for financial reporting purposes, investment transactions are reported on trade date. Interest income is recorded on the accrual basis. Realized gains and losses from investment transactions are recorded on an identified cost basis. Proceeds from litigation payments, if any, are included in net realized gain (loss) from investments. All premiums and discounts are amortized/accreted for both tax and financial reporting purposes.

## **B. Derivative Instruments**

**Swaps.** A swap is a contract between two parties to exchange future cash flows at periodic intervals based on the notional amount of the swap. A bilateral swap is a transaction between the Fund and a counterparty where cash flows are exchanged between the two parties. A centrally cleared swap is a transaction executed between the Fund and a counterparty, then cleared by a clearing member through a central

clearinghouse. The central clearinghouse serves as the counterparty, with whom the Fund exchanges cash flows.

The value of a swap is adjusted daily, and the change in value, if any, is recorded as unrealized appreciation or depreciation in the Consolidated Statement of Assets and Liabilities. Gains or losses are realized when the swap expires or is closed. Certain risks may arise when entering into swap transactions including counterparty default; liquidity; or unfavorable changes in interest rates or the value of the underlying reference security, commodity or index. In connection with bilateral swaps, securities and/or cash may be identified as collateral in accordance with the terms of the swap agreement to provide assets of value and recourse in the event of default. The maximum counterparty credit risk is the net present value of the cash flows to be received from or paid to the counterparty over the term of the swap, to the extent that this amount is beneficial to the Fund, in addition to any related collateral posted to the counterparty by the Fund. This risk may be partially reduced by a master netting arrangement between the Fund and the counterparty. Upon entering into a centrally cleared swap, the Fund is required to deposit with a financial intermediary cash or securities (“initial margin”) in an amount equal to a certain percentage of the notional amount of the swap. Subsequent payments (“variation margin”) are made or received by the Fund dependent upon the daily fluctuations in the value of the swap. In a centrally cleared swap transaction, counterparty risk is minimized as the central clearinghouse acts as the counterparty.

Commodity-linked swap agreements involve a commitment to pay interest in exchange for a commodity-linked return based on a notional amount. To the extent the return of the reference commodity or commodity index underlying the commodity-linked swap exceeds or falls short of the offsetting interest rate obligation, the Fund will receive a payment or make a payment to the counterparty, respectively. For the six months ended December 31, 2025, the Fund entered into commodity-linked swap agreements to gain exposure to the investment return of assets that trade in the commodity markets, without investing directly in physical commodities.

A summary of the open commodity-linked swap contracts as of December 31, 2025 is included in a table following the Fund’s Consolidated Investment Portfolio. For the six months ended December 31, 2025, the investment in long commodity-linked swap contracts had a total notional amount generally indicative of a range from \$1,747,835,000 to \$1,933,119,000.

**Futures Contracts.** A futures contract is an agreement between a buyer or seller and an established futures exchange or its clearinghouse in which the buyer or seller agrees to take or make a delivery of a specific amount of a financial instrument at a specified price on a specific date (settlement

date). For the six months ended December 31, 2025, the Fund entered into commodity futures contracts to gain exposure to the investment return of assets that trade in the commodity markets, without investing directly in physical commodities.

Upon entering into a futures contract, the Fund is required to deposit with a financial intermediary cash or securities ("initial margin") in an amount equal to a certain percentage of the face value indicated in the futures contract. Subsequent payments ("variation margin") are made or received by the Fund dependent upon the daily fluctuations in the value and are recorded for financial reporting purposes as unrealized gains or losses by the Fund. Gains or losses are realized when the contract expires or is closed. Since all futures contracts are exchange-traded, counterparty risk is minimized as the exchange's clearinghouse acts as the counterparty, and guarantees the futures against default.

Certain risks may arise upon entering into futures contracts, including the risk that an illiquid market will limit the Fund's ability to close out a futures contract prior to the settlement date and the risk that the futures contract is not well correlated with the security, index or currency to which it relates. Risk of loss may exceed amounts recognized in the Consolidated Statement of Assets and Liabilities.

A summary of the open futures contracts as of December 31, 2025, is included in a table following the Fund's Consolidated Investment Portfolio. For the six months ended December 31, 2025, the investment in futures contracts purchased had a total notional value generally indicative of a range from approximately \$34,061,000 to \$67,127,000, and the investment in futures contracts sold had a total notional value generally indicative of a range from approximately \$34,746,000 to \$46,084,000.

**Options.** An option contract is a contract in which the writer (seller) of the option grants the buyer of the option, upon payment of a premium, the right to purchase from (call option), or sell to (put option), the writer a designated instrument at a specified price within a specified period of time. The Fund may write or purchase interest rate swaption agreements which are options to enter into a pre-defined swap agreement. The interest rate swaption agreement will specify whether the buyer of the swaption will be a fixed-rate receiver or a fixed-rate payer upon exercise. The Fund may also purchase options on exchange-traded futures contracts where the Fund is required to deposit with a financial intermediary cash or securities ("initial margin") in an amount equal to a certain percentage of the face value indicated in the underlying futures contract. Subsequent payments ("variation margin") are made or received by the Fund dependent upon the daily fluctuations in the value and are recorded for financial reporting purposes as unrealized gains or losses by the Fund. Certain options, including options on indices, will require cash settlement by the Fund if exercised. For the six months ended

December 31, 2025, the Fund entered into options on commodity futures contracts to gain exposure to the investment return of assets that trade in the commodity markets, without investing directly in physical commodities.

If the Fund writes a covered call option, the Fund foregoes, in exchange for the premium, the opportunity to profit during the option period from an increase in the market value of the underlying security above the exercise price. If the Fund writes a put option it accepts the risk of a decline in the value of the underlying security below the exercise price. Over-the-counter options have the risk of the potential inability of counterparties to meet the terms of their contracts. The Fund's maximum exposure to purchased options is limited to the premium initially paid. There is no premium paid at the time of purchase on certain options on exchange-traded futures. At the expiration of these options on exchange-traded futures, the accumulated variation margin made or received is recorded as realized gains or losses. Certain risks may arise upon entering into option contracts including the risk that an illiquid secondary market will limit the Fund's ability to close out an option contract prior to the expiration date and that a change in the value of the option contract may not correlate exactly with changes in the value of the securities or currencies hedged.

A summary of open purchased option contracts as of December 31, 2025 is included in the Fund's Consolidated Investment Portfolio. A summary of open written option contracts is included in the table following the Fund's Consolidated Investment Portfolio. For the six months ended December 31, 2025, the investment in purchased options contracts had a total value generally indicative of a range from \$393,000 to approximately \$2,017,000, and the investment in written options contracts had a total value generally indicative of a range from approximately \$1,070,000 to \$2,466,000.

The following tables summarize the value of the Fund's derivative instruments held as of December 31, 2025 and the related location in the

accompanying Consolidated Statement of Assets and Liabilities, presented by primary underlying risk exposure:

<b>Asset Derivatives</b>	<b>Purchased Options</b>	<b>Swap Contracts</b>	<b>Futures Contracts</b>	<b>Total</b>
Commodity Contracts (a) (b)	\$ 392,700	\$ 7,442,298	\$ 1,813,585	\$ 9,648,583

Each of the above derivatives is located in the following Consolidated Statement of Assets and Liabilities accounts:

- (a) Futures contracts are reported in the table above using cumulative appreciation of futures contracts, as reported in the futures contracts table following the Fund's Consolidated Investment Portfolio; within the Consolidated Statement of Assets and Liabilities, the variation margin at period end is reported as Receivable (Payable) for variation margin on futures contracts.
- (b) Investments in securities at value (includes purchased options) and unrealized appreciation on bilateral swap contracts

<b>Liability Derivatives</b>	<b>Written Options</b>	<b>Swap Contracts</b>	<b>Futures Contracts</b>	<b>Total</b>
Commodity Contracts (a) (b)	\$ (1,841,000)	\$ (5,366,059)	\$ (1,147,665)	\$ (8,354,724)

Each of the above derivatives is located in the following Consolidated Statement of Assets and Liabilities accounts:

- (a) Futures contracts are reported in the table above using cumulative depreciation of futures contracts, as reported in the futures contracts table following the Fund's Consolidated Investment Portfolio; within the Consolidated Statement of Assets and Liabilities, the variation margin at period end is reported as Receivable (Payable) for variation margin on futures contracts.
- (b) Written options, at value and unrealized depreciation on bilateral swap contracts

Additionally, the amount of unrealized and realized gains and losses on derivative instruments recognized in Fund earnings during the six months ended December 31, 2025 and the related location in the accompanying Consolidated Statement of Operations is summarized in the following tables by primary underlying risk exposure:

<b>Realized Gain (Loss)</b>	<b>Purchased Options</b>	<b>Written Options</b>	<b>Swap Contracts</b>	<b>Futures Contracts</b>	<b>Total</b>
Commodity Contracts (a)	\$ (2,456,707)	\$ 883,336	\$ 6,822,127	\$ 685,787	\$ 5,934,543

Each of the above derivatives is located in the following Consolidated Statement of Operations accounts:

- (a) Net realized gain (loss) from investments (includes purchased options), written options, swap and futures contracts, respectively

**Change in Net Unrealized Appreciation (Depreciation)**

	<b>Purchased Options</b>	<b>Written Options</b>	<b>Swap Contracts</b>	<b>Futures Contracts</b>	<b>Total</b>
Commodity Contracts (a)	\$ (1,033,810)	\$ 648,979	\$ 31,142,996	\$ 740,264	\$ 31,498,429

Each of the above derivatives is located in the following Consolidated Statement of Operations accounts:

- (a) Change in net unrealized appreciation (depreciation) on investments (includes purchased options), written options, swap and futures contracts, respectively

As of December 31, 2025, the Fund has transactions subject to enforceable master netting agreements which govern the terms of certain transactions, and reduce the counterparty risk associated with such transactions. Master netting agreements allow a Fund to close out and net total exposure to a counterparty in the event of a deterioration in the credit quality or contractual default with respect to all of the transactions with a counterparty. As defined by the master netting agreement, the Fund may have collateral agreements with certain counterparties to mitigate risk. For financial reporting purposes the Consolidated Statement of Assets and Liabilities generally shows derivatives assets and liabilities on a gross basis, which reflects the full risks and exposures prior to netting. A reconciliation of the gross amounts on the Consolidated

Statement of Assets and Liabilities to the net amounts by a counterparty, including any collateral exposure, is included in the following tables:

<b>Counterparty</b>	<b>Gross Amount of Assets Presented in the Consolidated Statement of Assets and Liabilities</b>	<b>Financial Instruments and Derivatives Available for Offset</b>	<b>Non-Cash Collateral Received (a)</b>	<b>Cash Collateral Received (a)</b>	<b>Net Amount of Derivative Assets</b>
Barclays Bank PLC	\$ 256,805	\$ (256,805)	\$ —	\$ —	\$ —
Goldman Sachs & Co.	2,725,064	—	(2,725,064)	—	—

(a) The actual collateral received and/or pledged may be more than the amounts shown.

## C. Purchases and Sales of Securities

During the six months ended December 31, 2025, purchases and sales of investment securities, excluding short-term investments, were as follows:

	<b>Purchases</b>	<b>Sales</b>
Non-U.S. Treasury Obligations	\$50,335,534	\$83,668,399
U.S. Treasury Obligations	\$55,023,141	\$65,031,299

## D. Related Parties

**Management Agreement.** Under the Investment Management Agreement with DWS Investment Management Americas, Inc. (“DIMA” or the “Advisor”), an indirect, wholly owned subsidiary of DWS Group GmbH & Co. KGaA (“DWS Group”), the Advisor directs the investments of the Fund in accordance with its investment objectives, policies and restrictions. The Advisor determines the securities, instruments and other contracts relating to investments to be purchased, sold or entered into by the Fund.

Under the Investment Management Agreement with the Advisor, the Fund pays a monthly management fee based on the average daily net

assets of the Fund, computed and accrued daily and payable monthly, at the following annual rates:

First \$500 million of the Fund's average daily net assets	.800%
Next \$500 million of such net assets	.750%
Next \$500 million of such net assets	.700%
Next \$1 billion of such net assets	.675%
Next \$1 billion of such net assets	.650%
Next \$1.5 billion of such net assets	.625%
Over \$5 billion of such net assets	.600%

Accordingly, for the six months ended December 31, 2025, the fee pursuant to the Investment Management Agreement was equivalent to an annualized rate (exclusive of any applicable waivers/reimbursements) of 0.78% of the Fund's average daily net assets.

For the period from July 1, 2025 through September 30, 2025, the Advisor had contractually agreed to waive its fees and/or reimburse certain operating expenses of the Fund to the extent necessary to maintain the total annual operating expenses (excluding certain expenses such as extraordinary expenses, taxes, brokerage, interest expense and acquired fund fees and expenses) of each class as follows:

Class A	1.16%
Class C	1.91%
Class R6	.89%
Class S	1.01%
Institutional Class	.89%

Effective October 1, 2025 through September 30, 2026, the Advisor has contractually agreed to waive its fees and/or reimburse certain operating expenses of the Fund to the extent necessary to maintain the total annual operating expenses (excluding certain expenses such as extraordinary expenses, taxes, brokerage, interest expense and acquired fund fees and expenses) of each class as follows:

Class A	1.10%
Class C	1.85%
Class R6	.85%
Class S	.95%
Institutional Class	.85%

For the six months ended December 31, 2025, fees waived and/or expenses reimbursed for each class are as follows:

Class A	\$ 56,650
Class C	5,601
Class R6	13,021
Class S	25,791
Institutional Class	625,562
	<b>\$ 726,625</b>

**Administration Fee.** Pursuant to an Administrative Services Agreement, DIMA provides most administrative services to the Fund. For all services provided under the Administrative Services Agreement, the Fund pays the Advisor an annual fee (“Administration Fee”) of 0.097% of the Fund’s average daily net assets, computed and accrued daily and payable monthly. For the six months ended December 31, 2025, the Administration Fee was \$413,716, of which \$68,032 is unpaid.

**Service Provider Fees.** DWS Service Company (“DSC”), an affiliate of the Advisor, is the transfer agent, dividend-paying agent and shareholder service agent for the Fund. Pursuant to a sub-transfer agency agreement between DSC and SS&C GIDS, Inc. (“SS&C”), DSC has delegated certain transfer agent, dividend-paying agent and shareholder service agent functions to SS&C. DSC compensates SS&C out of the shareholder servicing fee it receives from the Fund. For the six months ended December 31, 2025, the amounts charged to the Fund by DSC were as follows:

<b>Services to Shareholders</b>	<b>Total Aggregated</b>	<b>Unpaid at December 31, 2025</b>
Class A	\$ 3,435	\$ 1,217
Class C	163	65
Class R6	3,496	1,250
Class S	3,803	1,345
Institutional Class	1,595	553
	<b>\$ 12,492</b>	<b>\$ 4,430</b>

In addition, for the six months ended December 31, 2025, the amounts charged to the Fund for recordkeeping and other administrative services provided by unaffiliated third parties, included in the Consolidated

Statement of Operations under “Services to shareholders,” were as follows:

<b>Sub-Recordkeeping</b>	<b>Total Aggregated</b>
Class A	\$ 41,760
Class C	3,435
Class S	28,215
Institutional Class	369,504
	<b>\$ 442,914</b>

**Distribution and Service Fees.** Under the Fund’s Class C 12b-1 Plan, DWS Distributors, Inc. (“DDI”), an affiliate of the Advisor, receives a fee (“Distribution Fee”) of 0.75% of the average daily net assets of Class C shares. In accordance with the Fund’s Underwriting and Distribution Services Agreement, DDI enters into related selling group agreements with various firms at various rates for sales of Class C shares. For the six months ended December 31, 2025, the Distribution Fee was as follows:

<b>Distribution Fee</b>	<b>Total Aggregated</b>	<b>Unpaid at December 31, 2025</b>
Class C	\$ 25,330	\$ 4,253

In addition, DDI provides information and administrative services for a fee (“Service Fee”) to Class A and C shareholders at an annual rate of up to 0.25% of the average daily net assets for each such class. DDI in turn has various agreements with financial services firms that provide these services and pays these fees based upon the assets of shareholder accounts the firms service. For the six months ended December 31, 2025, the Service Fee was as follows:

<b>Service Fee</b>	<b>Total Aggregated</b>	<b>Unpaid at December 31, 2025</b>	<b>Annualized Rate</b>
Class A	\$ 51,746	\$ 19,728	.25%
Class C	8,430	2,776	.25%
	<b>\$ 60,176</b>	<b>\$ 22,504</b>	

**Underwriting Agreement and Contingent Deferred Sales Charge.** DDI is the principal underwriter for the Fund. Underwriting commissions paid in connection with the distribution of Class A shares for the six months ended December 31, 2025 aggregated \$152.

In addition, DDI receives any contingent deferred sales charge (“CDSC”) from Class C share redemptions occurring within one year of purchase. There is no such charge upon redemption of any share appreciation or reinvested dividends. The CDSC is 1% of the value of the shares redeemed for Class C. For the six months ended December 31, 2025, the

CDSC for Class C shares aggregated \$47. A deferred sales charge of up to 1% is assessed on certain redemptions of Class A shares. For the six months ended December 31, 2025, DDI received \$32 for Class A shares.

**Other Service Fees.** Under an agreement with the Fund, DIMA is compensated for providing regulatory filing services to the Fund. For the six months ended December 31, 2025, the amount charged to the Fund by DIMA included in the Consolidated Statement of Operations under “Reports to shareholders” aggregated \$633, of which \$225 is unpaid.

**Trustees’ Fees and Expenses.** The Fund paid retainer fees to each Trustee not affiliated with the Advisor, plus specified amounts to the Board Chairperson and to each committee Chairperson.

**Affiliated Cash Management Vehicles.** The Fund may invest uninvested cash balances in DWS Central Cash Management Government Fund, an affiliated money market fund which is managed by the Advisor. DWS Central Cash Management Government Fund is managed in accordance with Rule 2a-7 under the 1940 Act, which governs the quality, maturity, diversity and liquidity of instruments in which a money market fund may invest and seeks to maintain a stable net asset value. The Fund indirectly bears its proportionate share of the expenses of its investment in DWS Central Cash Management Government Fund. DWS Central Cash Management Government Fund does not pay the Advisor an investment management fee.

## **E. Line of Credit**

The Fund and other affiliated funds (the “Participants”) share in a \$345 million revolving credit facility provided by a syndication of banks. The Fund may borrow for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities. The Participants are charged an annual commitment fee, which is allocated based on net assets, among each of the Participants. Interest is calculated at a daily fluctuating rate per annum equal to the sum of 0.10% plus the higher of the Federal Funds Effective Rate and the Overnight Bank Funding Rate, plus 1.25%. The Fund may borrow up to a maximum of 25 percent of its net assets under the agreement. The Fund had no outstanding loans at December 31, 2025.

## **F. Investing in Commodities-Related Investments**

The Fund invests in commodity-linked derivative instruments such as commodity-linked swaps, commodity-linked structured notes and options and futures contracts that are designed to provide exposure to the investment return of assets that trade in the commodity markets, without investing directly in physical commodities. The commodities-linked derivatives instruments in which the Fund invests are more volatile than many other types of securities and may subject the Fund to special risks

that do not apply to all derivatives transactions. The value of a commodity-linked derivative investment generally is based upon the price movements of a physical commodity (such as energy, minerals, or agricultural products), a futures contract, swap or commodity index, or other economic variables based upon changes in the value of commodities or the commodities markets. The value of commodity-linked derivative instruments may be affected by changes in overall market movements, commodity index volatility, changes in interest rates, or factors affecting a particular industry or commodity, such as drought, floods, weather, livestock disease, changes in storage costs, embargoes, tariffs, policies of commodity cartels and international economic, political and regulatory developments. Also, a liquid secondary market may not exist for the types of commodity-linked derivative instruments the Fund buys, which may make it difficult for the Fund to sell them at an acceptable price. The Fund's ability to gain exposure to commodity-linked investments and achieve its investment objective may be limited by its intention to qualify as a regulated investment company under the Internal Revenue Code of 1986, as amended.

## G. Fund Share Transactions

The following table summarizes share and dollar activity in the Fund:

	Six Months Ended December 31, 2025		Year Ended June 30, 2025	
	Shares	Dollars	Shares	Dollars
<b>Shares sold</b>				
Class A	835,940	\$ 4,855,432	2,744,204	\$ 15,619,799

# Advisory Agreement Board Considerations and Fee Evaluation

The Board of Trustees (hereinafter referred to as the “Board” or “Trustees”) approved the renewal of DWS Enhanced Commodity Strategy Fund’s (the “Fund”) investment management agreement (the “Agreement”) with DWS Investment Management Americas, Inc. (“DIMA”) in September 2025.

In terms of the process that the Board followed prior to approving the Agreement, shareholders should know that:

- During the entire process, all of the Fund’s Trustees were independent of DIMA and its affiliates (the “Independent Trustees”).
- The Board met frequently during the past year to discuss fund matters and dedicated a substantial amount of time to contract review matters. Over the course of several months, the Board reviewed extensive materials received from DIMA, independent third parties and independent counsel, including materials containing information on the Fund’s performance, fees and expenses, profitability, economies of scale and fall-out benefits.
- The Board also received extensive information throughout the year regarding performance of the Fund.
- The Independent Trustees regularly met privately with counsel to discuss contract review and other matters.
- In connection with reviewing the Agreement, the Board also reviewed the terms of the Fund’s Rule 12b-1 plan, distribution agreement, administrative services agreement, transfer agency agreement, and certain other material service agreements.

In connection with the contract review process, the Board considered the factors discussed below, among others. The Board also considered that DIMA and its predecessors have managed the Fund since its inception, and the Board believes that a long-term relationship with a capable, conscientious advisor is in the best interests of the Fund. The Board considered, generally, that shareholders chose to invest or remain invested in the Fund knowing that DIMA managed the Fund. DIMA is part of DWS Group GmbH & Co. KGaA (“DWS Group”). DWS Group is a global asset management business that offers a wide range of investing expertise and resources, including research capabilities in many countries throughout the world. DWS Group is majority-owned by Deutsche Bank AG, with approximately 20% of its shares publicly traded.

As part of the contract review process, the Board carefully considered the fees and expenses of each DWS fund overseen by the Board in light of the fund’s performance. In many cases, this led to the negotiation and implementation of expense caps.

While shareholders may focus primarily on fund performance and fees, the Board considers these and many other factors, including the quality and integrity of DIMA's personnel and administrative support services provided by DIMA, such as back-office operations, fund valuations, and compliance policies and procedures.

**Nature, Quality and Extent of Services.** The Board considered the terms of the Agreement, including the scope of advisory services provided under the Agreement. The Board noted that, under the Agreement, DIMA provides portfolio management services to the Fund and that, pursuant to a separate administrative services agreement, DIMA provides administrative services to the Fund. The Board considered the experience and skills of senior management and investment personnel and the resources made available to such personnel. The Board also considered the risks to DIMA in sponsoring or managing the Fund, including financial, operational and reputational risks, the potential economic impact to DIMA from such risks and DIMA's approach to addressing such risks. The Board reviewed the Fund's performance over short-term and long-term periods and compared those returns to various agreed-upon performance measures, including market index(es) and a peer universe compiled using information supplied by Morningstar Direct ("Morningstar"), an independent fund data service. The Board also noted that it has put into place a process of identifying "Funds in Review" (e.g., funds performing poorly relative to a peer universe), and receives additional reporting from DIMA regarding such funds and, where appropriate, DIMA's plans to address underperformance. The Board believes this process is an effective manner of identifying and addressing underperforming funds. Based on the information provided, the Board noted that, for the one-, three- and five-year periods ended December 31, 2024, the Fund's performance (Class A shares) was in the 4th quartile of the applicable Morningstar universe (the 1st quartile being the best performers and the 4th quartile being the worst performers). The Board also observed that the Fund has underperformed its benchmark in the one-, three- and five-year periods ended December 31, 2024. The Board noted the underperformance of the Fund in recent periods and continued to discuss with senior management of DIMA the factors contributing to such underperformance and, where needed, the actions being taken to improve performance. The Board recognized the efforts by DIMA in recent years to enhance its investment platform and improve long-term performance across the DWS fund complex.

**Fees and Expenses.** The Board considered the Fund's investment management fee schedule, operating expenses and total expense ratios, and comparative information provided by Broadridge Financial Solutions, Inc. ("Broadridge") regarding investment management fee rates paid to other investment advisors by similar funds (1st quartile being the most favorable and 4th quartile being the least favorable). With respect to

management fees paid to other investment advisors by similar funds, the Board noted that the contractual fee rates paid by the Fund, which include a 0.097% fee paid to DIMA under the Fund's administrative services agreement, were higher than the median (3rd quartile) of the applicable Broadridge peer group (based on Broadridge data provided as of December 31, 2024). The Board noted that, effective October 1, 2023, in connection with the 2023 contract renewal process, DIMA agreed to reduce the Fund's contractual management fee at each breakpoint by 0.05%. The Board noted that the Fund's Class A shares total (net) operating expenses (excluding 12b-1 fees) were expected to be lower than the median (2nd quartile) of the applicable Broadridge expense universe (based on Broadridge data provided as of December 31, 2024, and analyzing Broadridge expense universe Class A (net) expenses less any applicable 12b-1 fees) ("Broadridge Universe Expenses"). The Board also reviewed data comparing each other operational share class's total (net) operating expenses to the applicable Broadridge Universe Expenses. The Board noted that the expense limitations agreed to by DIMA were expected to help the Fund's total (net) operating expenses remain competitive. The Board considered the Fund's management fee rate as compared to fees charged by DIMA to comparable DWS U.S. registered funds ("DWS Funds"), noting that DIMA indicated that it does not provide services to any other comparable DWS Funds. The information requested by the Board as part of its review of fees and expenses also included information about institutional accounts (including any sub-advised funds and accounts) and funds offered primarily to European investors ("DWS Europe Funds") managed by DWS Group. The Board noted that DIMA indicated that DWS Group manages a DWS Europe Fund comparable to the Fund, but does not manage any comparable institutional accounts. The Board took note of the differences in services provided to DWS Funds as compared to DWS Europe Funds and that such differences made comparison difficult.

On the basis of the information provided, the Board concluded that management fees were reasonable and appropriate in light of the nature, quality and extent of services provided by DIMA.

**Profitability.** The Board reviewed detailed information regarding revenues received by DIMA under the Agreement. The Board considered the estimated costs to DIMA, and pre-tax profits realized by DIMA, from advising the DWS Funds, as well as estimates of the pre-tax profits attributable to managing the Fund in particular. The Board also received information regarding the estimated enterprise-wide profitability of DIMA and its affiliates with respect to all fund services in totality and by fund. The Board reviewed DIMA's methodology in allocating its costs to the management of the Fund. Based on the information provided, the Board concluded that the pre-tax profits realized by DIMA in connection with the management of the Fund were not unreasonable. The Board also

reviewed certain publicly available information regarding the profitability of certain similar investment management firms. The Board noted that, while information regarding the profitability of such firms is limited (and in some cases is not necessarily prepared on a comparable basis), DIMA and its affiliates' overall profitability with respect to the DWS Funds (after taking into account distribution and other services provided to the funds by DIMA and its affiliates) was in line with the overall profitability levels of most comparable firms for which such data was available.

**Economies of Scale.** The Board considered whether there are economies of scale with respect to the management of the Fund and whether the Fund benefits from any economies of scale. The Board noted that the Fund's investment management fee schedule includes fee breakpoints. The Board concluded that the Fund's fee schedule represents an appropriate sharing between the Fund and DIMA of such economies of scale as may exist in the management of the Fund at current asset levels.

**Other Benefits to DIMA and Its Affiliates.** The Board also considered the character and amount of other incidental or "fall-out" benefits received by DIMA and its affiliates, including any fees received by DIMA for administrative services provided to the Fund, any fees received by an affiliate of DIMA for transfer agency services provided to the Fund and any fees received by an affiliate of DIMA for distribution services. The Board also considered benefits to DIMA related to brokerage and soft-dollar allocations, including allocating brokerage to pay for research generated by parties other than the executing broker dealers, which pertain primarily to funds investing in equity securities. In addition, the Board considered the incidental public relations benefits to DIMA related to DWS Funds advertising and cross-selling opportunities among DIMA products and services. The Board considered these benefits in reaching its conclusion that the Fund's management fees were reasonable.

**Compliance.** The Board considered the significant attention and resources dedicated by DIMA to its compliance processes. The Board noted in particular (i) the experience, seniority and time commitment of the individuals serving as DIMA's and the Fund's chief compliance officers; (ii) the substantial commitment of resources by DIMA and its affiliates to compliance matters; and (iii) ongoing efforts to enhance the compliance program.

Based on all of the information considered and the conclusions reached, the Board determined that the continuation of the Agreement is in the best interests of the Fund. In making this determination, the Board did not give particular weight to any single factor identified above and individual Independent Trustees may have weighed these factors differently in reaching their individual decisions to approve the continuation of the Agreement. The Board considered these factors over the course of

numerous meetings, certain of which were in executive session with only the Independent Trustees and counsel present.
