The quality ratings represent the highest of Moody's Investors Service, Inc. ("Moody's"), Fitch Ratings, Inc. ("Fitch") or S&P Global Ratings ("S&P") credit ratings. The ratings of Moody's, Fitch and S&P represent their opinions as to the quality of the securities they rate. Credit quality measures a bond issuer's ability to repay interest and principal in a timely manner. Ratings are relative and subjective and are not absolute standards of quality. Credit quality does not remove market risk and is subject to change.

Material Fund Changes

Householding

In order to reduce the amount of mail you receive and to help reduce expenses, we generally send a single copy of any shareholder report and prospectus to each household. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact your financial representative or call DWS toll free at (800) 728-3337.

Bond and loan investments are subject to interest-rate, credit, liquidity and market risks to varying degrees. When interest rates rise, bond prices generally fall. Credit risk refers to the ability of an issuer to make timely payments of principal and interest. As interest rates change, issuers of higher (or lower) interest debt obligations may pay off the debts earlier (or later) than expected causing the Fund to reinvest proceeds at lower yields (or be tied up in lower interest debt obligations). Floating rate loans tend to be rated below investment grade. Investments in lower-quality ("junk bonds") and non-rated securities present greater risk of loss than investments in higher-quality securities. In certain situations, it may be difficult or impossible to sell an investment at an acceptable price. Investing in foreign securities presents certain risks, such as currency fluctuations, political and economic changes, and market risks. Investing in derivatives entails special risks relating to liquidity, leverage and credit that may reduce returns and/or increase volatility. If affiliates of the Advisor participate in the primary and secondary market for senior loans, legal limitations may restrict the Fund's ability to participate in restructuring or acquiring some senior loans. The Fund may lend securities to approved institutions. Please read the prospectus for details.

This report must be preceded or accompanied by a prospectus. We advise you to consider the Fund's objectives, risks, charges, and expenses carefully before investing. The prospectus contains this and other important information about the Fund, which can be requested by calling (800) 728-3337, contacting your financial representative, or visit dws.com/mutualreports to view or download a prospectus. Please read the prospectus carefully before you invest.
