Householding

In order to reduce the amount of mail you receive and to help reduce expenses, we generally send a single copy of any shareholder report and prospectus to each household. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact your financial representative or call DWS toll free at (800) 728-3337.

Although allocation among different asset categories generally limits risk, fund management may favor an asset category that underperforms other assets or markets as a whole. Stocks may decline in value. Bond investments are subject to interest-rate, credit, liquidity, and market risks to varying degrees. When interest rates rise, bond prices generally fall. Credit risk refers to the ability of an issuer to make timely payments of principal and interest. Investing in foreign securities presents certain risks, such as currency fluctuations, political and economic changes, and market risks. Investing in derivatives entails special risks relating to liquidity, leverage and credit that may reduce returns and/or increase volatility. The Fund's performance is directly related to the performance of the underlying portfolios or funds. In addition, the Fund indirectly pays a portion of the expenses incurred by the underlying portfolios or funds. The underlying funds could expose the Fund to risks related to investing in inflation-indexed bonds, real estate securities, infrastructure related companies, commodities, frontier markets, micro-cap companies and the CROCI investment process. Please read the prospectus for details.

This report must be preceded or accompanied by a prospectus. We advise you to consider the Fund's objectives, risks, charges, and expenses carefully before investing. The prospectus contains this and other important information about the Fund, which can be requested by calling (800) 728-3337, contacting your financial representative, or visit dws.com/mutualreports to view or download a prospectus.
