Two Xtrackers fixed income ETFs win accolades at Mutual Fund Industry & ETF Awards

Two exchange-traded funds (ETFs) from DWS Group’s Xtrackers fixed income suite won in their categories at the 2019 Mutual Fund Industry & ETF Awards.

The Xtrackers USD High Yield Corporate Bond ETF (NYSE Arca: HYLB) won in the “Sales Success of the Year – ETFs” category for its successful growth in assets in 2018.

In addition, Xtrackers High Beta High Yield Bond ETF (NYSE Arca: HYUP) was awarded the title of “New Smart-beta ETF of the Year.”2 Launched in early 2018, HYUP offers investors access to lower-credit quality, higher beta bonds.

“We are thrilled to have two of our fixed income ETFs recognized in the Mutual Fund Industry & ETF Awards,” said Fiona Bassett, Global Co-Head of Passive Asset Management and Global Co-Head of Product. “Our goal at DWS is to develop investment solutions that bring innovation, access and value to clients. Our fixed income lineup provides investors with exposure to different levels of credit and interest rate risk for more customizable risk allocation in their portfolios.”

DWS Group
DWS Group (DWS) is one of the world’s leading asset managers with USD 757.9 billion of assets under management (as of 31 December 2018). Building on more than 60 years of experience and a reputation for excellence in Germany and across Europe, DWS has come to be recognized by clients globally as a trusted source for integrated investment solutions, stability and innovation across a full spectrum of investment disciplines.

1 The Sales Success – ETFs award is given to an individual fund or line of funds that, whether through performance, sales strategy or a combination of both, achieved a dramatic increase or high level of flows. Source: Mutual Fund Industry & ETF Awards
2 The smart-beta ETF award is given to the most successful smart-beta ETF as determined by a combination of several factors, including flows, performance and innovation. ETFs launched on or after Jan. 1, 2018 are eligible for entry. Source: Mutual Fund Industry & ETF Awards
We offer individuals and institutions access to our strong investment capabilities across all major asset classes and solutions aligned to growth trends. Our diverse expertise in Active, Passive and Alternatives asset management – as well as our deep environmental, social and governance focus – complement each other when creating targeted solutions for our clients. Our expertise and on-the-ground Knowledge of our economists, research analysts and investment professionals are brought together in one consistent global CIO View, which guides our strategic investment approach.

DWS wants to innovate and shape the future of investing: with approximately 3,600 employees in offices all over the world, we are local while being one global team.

ETF shares are not individually redeemable, and owners of shares may acquire those shares from the Fund, or tender such shares for the redemption to the Fund, in Creation Units only.

Consider each Fund’s investment objectives, risk factors, and charges and expenses before investing. This and other important information can be found in the Funds' prospectus, which may be obtained by calling 1-855-DBX-ETFS (1-855-329-3637) or by viewing or downloading a prospectus at www.Xtrackers.com. Please read it carefully before investing.

Xtrackers ETFs are managed by DBX Advisors LLC (the Advisor), and distributed by ALPS Distributors, Inc. (ALPS). The Advisor is a wholly owned subsidiary of DWS Group GmbH & Co. KGaA, and is not affiliated with ALPS.

HYLB risks: Investing involves risk, including the possible loss of principal. Bond investments are subject to interest rate, credit, liquidity and market risks to varying degrees. When interest rates rise, bond prices generally fall. Credit risk refers to the ability of an issuer to make timely payments of principal and interest. Foreign investing involves greater and different risks than investing in U.S. companies, including currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards. Funds investing in a single industry (or group of industries), country or in a limited geographic region generally are more volatile than more diversified funds. Investments in lower-quality ("junk bonds") and non-rated securities present greater risk of loss than investments in higher-quality securities. This fund is non-diversified and can take larger positions in fewer issues, increasing its potential risk. Performance of the Fund may diverge from that of the Underlying Index due to operating expenses, transaction costs, cash flows, use of sampling strategies or operational inefficiencies. An investment in this fund should be considered only as a supplement to a complete investment program for those investors willing to accept the risks associated with that fund. Please read the prospectus for more information.

HYUP risks: Investing involves risk, including the possible loss of principal. Bond investments are subject to interest rate, credit, liquidity and market risks to varying degrees. When interest rates rise, bond prices generally fall. Credit risk refers to the ability of an issuer to make timely payments of principal and interest. Foreign investing involves greater and different risks than investing in U.S. companies, including currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards. Funds investing in a single industry (or group of industries), country or in a limited geographic region generally are more volatile than more diversified funds. Distressed securities are speculative and involve substantial risks beyond the risks of investing in junk bonds, such as no interest payments or repayment of principal, or the loss of the entire investment in the distressed security. Investments in lower-quality ("junk bonds") and non-rated securities present greater risk of loss than investments in higher-quality securities. Investing in derivatives entails special risks relating to liquidity, leverage and credit that may reduce returns and/or increase volatility. Performance of the fund may diverge from that of the Underlying Index due to operating expenses, transaction costs, cash flows, use of sampling strategies or operational inefficiencies. An investment in this fund should be considered only as a supplement to a complete investment program for those investors willing to accept the risks associated with that fund. See the prospectus for details.
